

LAPORAN PRAKTIKUM TRIGGER

DISUSUN OLEH :

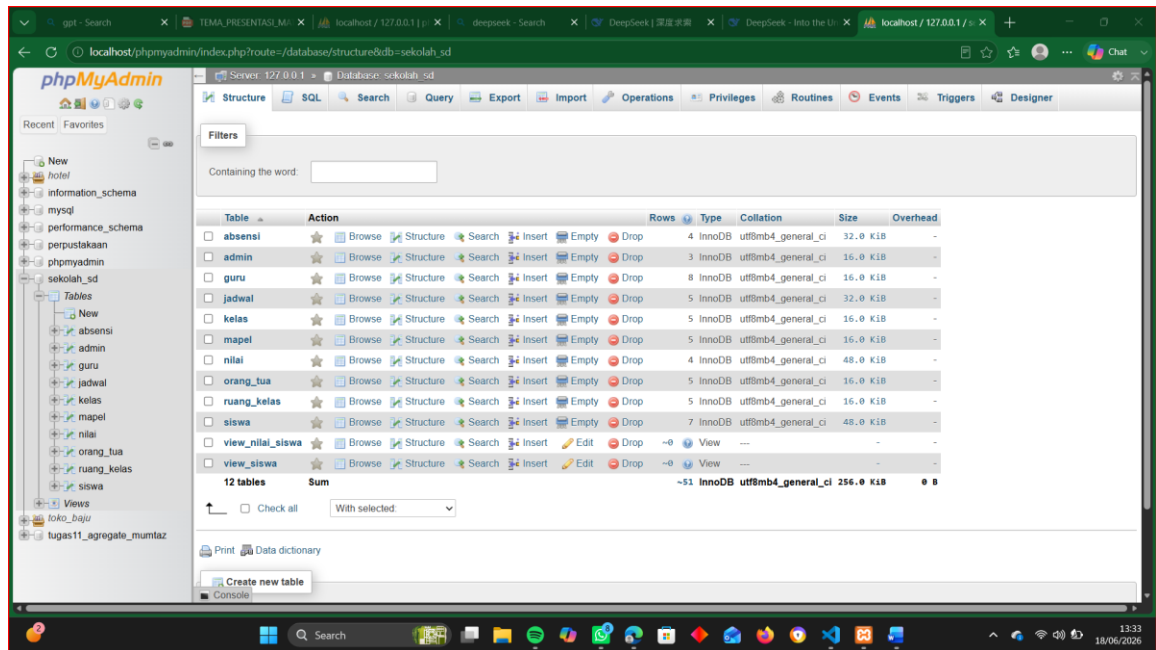

DEVI ALIYA KURNIYANTI

2502008

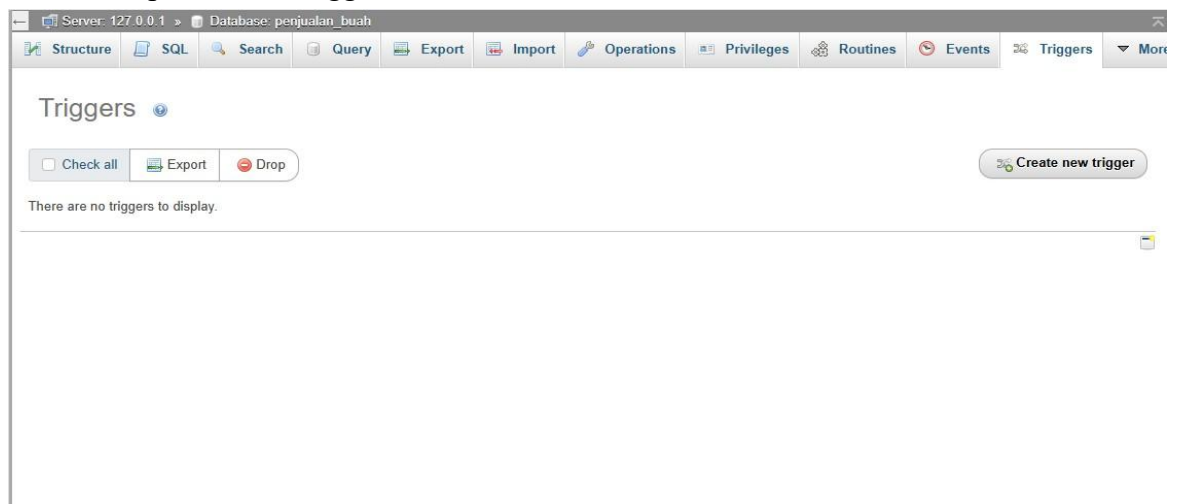

POLITEKNIK PURBAYA TEGAL

TEKNIK INFORMATIKA TAHUN 2025/2026

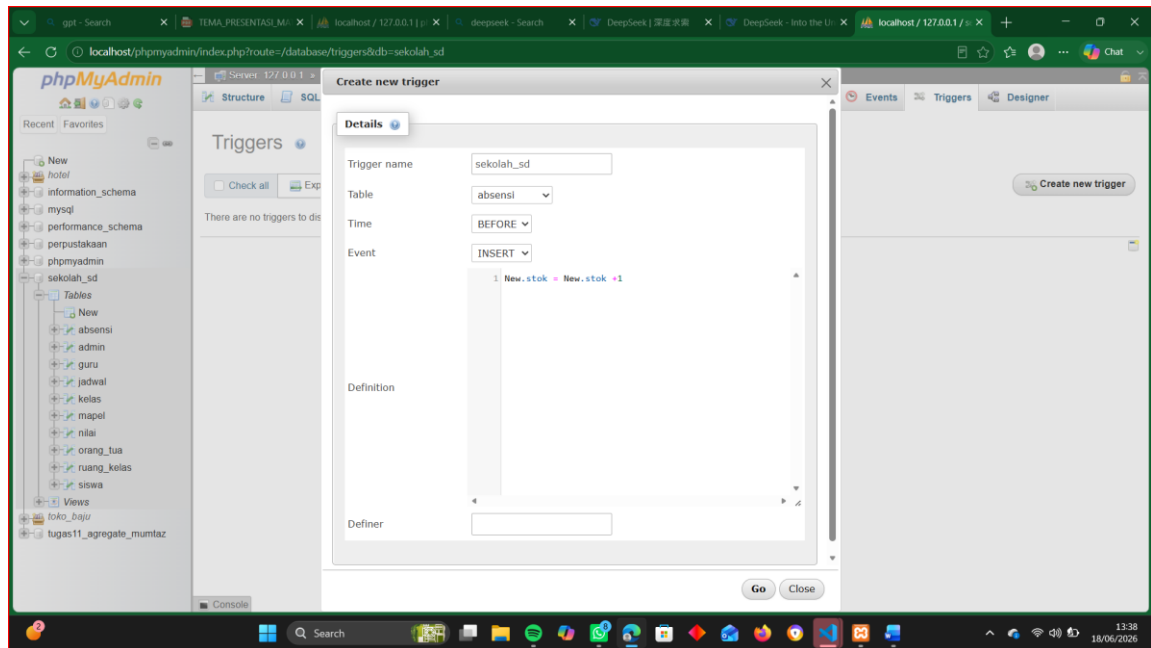

A. Pertama masuk ke database lalu pilih triggers

B. Kemudian pilih create trigger

- C. Isi trigger name dengan stok buah sesuai database yang diinginkan lalu ketik Set New.stok = New.stok +1

- D. Kemudian masuk cmd mysql dengan ketik perintah di bawah

```
MariaDB [sekolah_sd]> SELECT * FROM log_nilai;
Empty set (0.004 sec)

MariaDB [sekolah_sd]>
```

- E. Hasil akhirnya stok akan bertambah otomatis +1 sesuai perintah set trigger yang telah dimasukkan

```
MariaDB [sekolah_sd]> DELIMITER ;
MariaDB [sekolah_sd]> SELECT * FROM barang;
+-----+-----+-----+
| id_barang | nama_barang | stok |
+-----+-----+-----+
|         1 | Buku Tulis |   10 |
+-----+-----+-----+
1 row in set (0.033 sec)

MariaDB [sekolah_sd]> INSERT INTO transaksi (id_barang, tanggal)
-> VALUES (1, CURDATE());
Query OK, 1 row affected (0.017 sec)

MariaDB [sekolah_sd]> SELECT * FROM barang;
+-----+-----+-----+
| id_barang | nama_barang | stok |
+-----+-----+-----+
|         1 | Buku Tulis |   11 |
+-----+-----+-----+
1 row in set (0.000 sec)

MariaDB [sekolah_sd]> |
```
